

# 2017-2018 FALL FUNDING REQUEST: \$497,300

The Mercer Island Schools Foundation transforms the passion of parents, businesses and community members into investments designed to prepare every student to succeed and make Mercer Island Schools among the BEST in the state. Funding requests for 2017-2018 provide leverage to ensure that strategically identified programs for grades K-12 in core academics and enrichment are available to every Mercer Island student. The funds that are requested this fall will be available to students and teachers for use in the classroom this school year.
