## Sponsorship Proposal

**The Mercer Island Schools Foundation raises funds to bridge the gap between what the state provides and what is needed to support Mercer Island School District's priorities of academic excellence and success for all Mercer Island public school students, teachers, and staff.**

The Foundation works to build partnerships between parents, community members, and businesses that enhance the District's efforts ultimately ensure students have the opportunity to achieve academic excellence and reach their highest potential.

The Mercer Island Schools Foundation is a local 501(c)(3) non-profit charity that serves students, children, and teachers in the Mercer Island School District. The Foundation was started in 1985 by community members and has since raised over \$26 million to provide our schools with programs that inspire learning, enrich teaching, and promote innovation and academic excellence in the Mercer Island public schools.

The Foundation has given parents and community partners a means to invest in an exceptional education for our island students. The need in the first few years for some textbooks and a few computers has grown into more than a million dollar commitment to the District each year. This community investment helps maintain small class sizes, rigorous academics, and a breadth of educational experiences from kindergarten through high school.
